2019 Prudential Guaranteed Investment^ Effective Annual Yield 3.25% (before fees).

^Interest is compounded daily to produce the annual yield prior to the deduction of administrative fees of the WEA TSA Trust and the WEAC IRA program. Principal and net credited interest are fully guaranteed by Prudential Retirement Insurance and Annuity Company (PRIAC). Such guarantees are based solely upon the financial strength and claims-paying ability of PRIAC.

The Prudential Guaranteed Investment is a group annuity product issued by PRIAC. Amounts contributed to the contract are deposited in PRIAC's general account. Payment obligations and the fulfillment of any guarantees specified in the group annuity contract are insurance claims supported by the full faith and credit of PRIAC. PRIAC periodically resets the interest rate credited on contract balances, subject to a minimum rate specified in the group annuity contract and subject to change. Past interest rates are not indicative of future rates. PRIAC is compensated in connection with this product by deducting an amount for investment expenses and risk from the investment experience of certain assets held in PRIAC's general account.

*Performance data represents past performance and is no guarantee of future results. Current performance may be lower or higher than the performance data quoted. Performance information presented includes changes in principal value, reinvested dividends, and capital gains distributions. For periods greater than one year, performance figures are annualized. The investment return and principal value of an investment will fluctuate so that investor shares, when redeemed, may be worth more or less than their original costs. You can request a fund prospectus by calling 1-800-279-4030, Extension 8568, or by going to the fund's Web site. We advise you to read it carefully and consider the fund's investment objectives, risks, and expenses carefully before investing. The prospectus contains this information about the investment.

**The shares for 10-Year are reflected as from inception to date. The fund is less than 10 years old.

***The Vanguard Target Retirement Income 2015, 2025, 2035, 2045, and 2060 funds reflect institutional shares for 3-Month, YTD, 1-Year, and 3-Year. Investor shares are used for 5-Year. Investor shares are used for 3-Year and 5-Year returns for the Fidelity Contrafund and Fidelity Diversified International.

Vanguard's target retirement funds, sometimes called life-cycle funds, are appropriate for individuals who want a simpler, straightforward approach to retirement investing that requires less personal involvement. With one fund selection, you can create a diversified portfolio. Each fund has a predetermined time horizon based on your targeted time frame for entering retirement. These funds invest in a specific mix of Vanguard stock and bond index funds and inflation-protected securities that steadily become more conservative as they approach a final allocation during retirement. Although target retirement funds can simplify investment selection, all mutual fund investing is subject to risk. Diversification does not ensure a profit or protect against loss in a declining market. Target retirement funds are not guaranteed and may gain or lose value now and after the target date is attained.

TSA program registered representatives are licensed through WEA Investment Services, Inc., member FINRA. The 403(b) retirement plan is offered by WEA TSA Trust. The Trustee Custodian for the WEAC IRA accounts is Newport Trust Company.

WEA Retirement Model Portfolios	Investment Performance %					
	Quarter-end as of June 30, 2019					
	YTD	3 MO	1 YR	3 YR	5 YR	10 YR
Conservative (60% Fixed/40% Equities)	7.88	2.06	4.12	7.73	5.77	7.98
Moderately Conservative (50% Fixed/50% Equities)	9.44	2.38	4.19	8.49	6.18	8.78
Moderate (40% Fixed/60% Equities)	11.15	2.76	4.59	9.62	6.74	9.72
Moderately Aggressive (25% Fixed/75% Equities)	13.54	3.11	4.62	11.27	7.54	11.22
Aggressive (10% Fixed/90% Equities)	15.85	3.44	4.77	12.96	8.37	12.65

Conservative (60% Fixed/40% Equities)

Fixed Income	60%
Large-Cap Stock Funds	15%
Mid-Cap Stock Funds	8%
Small-Cap Stock Funds	7%
International Equity Funds	10%

As a conservative investor, your portfolio will be invested in the most risk-averse areas such as cash and fixed-income securities. This approach offers a high degree of stability and should minimize the chances of substantial short-term volatility. The overall return, while not guaranteed, should fall within a narrow range of possibilities. However, particularly for time periods greater than five years, these returns may underperform the returns achievable from a higher-risk approach.

Moderately Conservative (50% Fixed/50% Equities)

Fixed Income	50%
Large-Cap Stock Funds	20%
Mid-Cap Stock Funds	9%
Small-Cap Stock Funds	9%
International Equity Funds	12%

As a moderately conservative investor, your portfolio will be invested primarily in areas such as cash and fixed-income securities with only a modest exposure to equities. This approach concentrates on stability rather than maximizing return and should limit the chances of substantial short-term volatility. The overall return, while not guaranteed, should fall within a narrow range of possibilities. However, particularly for time periods greater than five years, these returns may underperform the returns achievable from a higher-risk approach.

Moderate (40% Fixed/60% Equities)

Fixed Income	40%
Large-Cap Stock Funds	25%
Mid-Cap Stock Funds	10%
Small-Cap Stock Funds	10%
International Equity Funds	15%

As a moderate investor, your portfolio will include investments in equities, balanced by exposure to more risk-averse areas of the market such as cash, fixed-income securities and real estate. This approach aims to achieve a balance between stability and return, but is likely to involve at least some short-term volatility. The overall return, while not guaranteed, although the range of possible outcomes should not be extreme. In most, circumstances, particularly for time periods greater than five years, these returns should outperform the returns achievable from a more conservative approach but may underperform the returns achievable from a higher-risk approach.

Moderately Aggressive (25% Fixed/75% Equities)

Fixed Income	25%
Large-Cap Stock Funds	30%
Mid-Cap Stock Funds	14%
Small-Cap Stock Funds	14%
International Equity Funds	17%

As a moderately aggressive investor, your portfolio will be invested primarily in equities. This approach concentrates on achieving a good overall return on your investment while avoiding the most speculative areas of the market. Significant short-term fluctuations in value can be expected. The eventual return for the time period over which you invest could fall within a relatively wide range of possibilities. In most circumstances, particularly for time periods greater than five years, these returns should outperform the returns achievable from a more conservative approach.

Aggressive (10% Fixed/90% Equities)

Fixed Income	10%
Large-Cap Stock Funds	40%
Mid-Cap Stock Funds	15%
Small-Cap Stock Funds	15%
International Equity Funds	20%

As an aggressive investor, your portfolio will be invested in equities and will include exposure to more speculative areas of the market. The aim is to maximize return while accepting the possibility of large short-term fluctuations in value and even the possibility of longer-term losses. The eventual return for the time period over which you invest could fall within a wide range of possibilities. In most circumstances, the return should outperform the returns achievable from a more conservative approach.

Model portfolios are developed by WEA Financial Advisors, Inc., (WEA FA) under the oversight of the WEA Member Benefits Investment Committee. Model portfolios may be adjusted at the discretion of WEA FA and the Investment Committee with prior notice to the account owner. From time-to-time, there may be extraordinary situations that will warrant more scrutiny when making adjustments. An example is the market downturn in October 2008.

Although WEA FA carefully evaluates the makeup of the portfolios on a regular basis, we make no representation regarding the likelihood or probability that any or all of the portfolios will in. We recommend account owners reassess investment strategy at least once a year as needs goals, portfolio, and situations may change over time. Account owners can choose a different model at any time. Redemption fees may apply. When participating in a WEA Member Benefits model portfolio, an Investor Suitability Profile Questionnaire must be completed every three years and notify the advisor if any suitability changes occur.

Investment models are not FDIC-insured, and they are not bank-guaranteed. Investment models may lose value. Past performance is no guarantee of future results. Model performance returns illustrate the relationship between risk and reward.

The WEA Member Benefits model portfolios are risk-based. The more conservative the underlying asset weightings are, the lower the expected rate of return. Because of market changes, the makeup of your actual account portfolio will not exactly match the model portfolio.

The construction of the allocation models uses Morningstar® Advisor® to create portfolios of pre-selected investment products that approximately complete the model parameters.
